

As the first Polish Partner of Amazon Web Services and the first with the Advanced status, after years of conquering the American market, we decided to help take full advantage of advanced cloud computing capabilities, so that it becomes the foundation of a reliable business, also to clients in Poland.

You probably guess that, in this connection, we have hands full of work.  
Therefore, we are looking for our team of engineers:

### Full Stack JavaScript Developer Engineer Reference number: DO/06/2018

#### Who will help us:

- in developing, testing and implementation of serverless applications built entirely with scalable components such as AWS Lambda (NodeJS), DynamoDB, RDS and API Gateway,
- in creating automation and management of AWS infrastructures using Jenkins / Cloudformation / AWS SDK,
- in writing a clean, well-documented code,
- in cooperation with a foreign programming team to disseminate knowledge, develop resources and solve problems,
- in taking the responsibility for the stability, performance and security of the basic infrastructure.

#### We require from you:

- experience in delivering applications built using NodeJS, Javascript and a solid understanding of supporting concepts such as NPM, module development patterns, asynchrony and event control, relational databases and NoSQL databases, etc.
- 1-3 years of experience in a similar position or willingness to develop in this direction are welcome,
- experience in NodeJS and JavaScript 6/7
- experience in the development of Amazon Web Services (AWS) web applications or the desire to develop in this direction are welcome,
- fluent English.

#### In return, we propose:

- great working conditions, remuneration adequate to the level of responsibility,
- necessary tools for work, contact with advanced cloud computing technology,
- an unlimited possibility of exploring the secrets of cloud computing,
- work for prestigious, demanding clients,
- the possibility of active participation in the work of the research team and development,
- remote work,
- stable employment on a contract of employment or B2B,
- participation in trainings, improving qualifications, professional development,
- co-financing for the AWS Certified Developer Certificate
