

As the first Polish Partner of Amazon Web Services and the first with the Advanced status, after years of conquering the American market, we decided to help, take full advantage advanced cloud computing capabilities, so that it becomes the foundation of a reliable business, also to clients in Poland.

You probably guess that, in this connection, we have hands full of work.

Therefore, we are looking for our team of engineers:

Node.js Developer

Who will help us in:

- developing, testing and implementation of the serverless application built entirely with scalable components such as AWS Lambda (NodeJS), DynamoDB, RDS and API Gateway,
- creating automation and management of AWS infrastructure using the Jenkins / Cloudformation / AWS SDK,
- writing a clean, well-documented code,
- cooperation with a foreign programming team to disseminate knowledge, develop resources and solve problems,
- responsibility for the stability, performance and security of the basic infrastructure.

We require from you:

- minimum 2-3 years of experience in providing applications built using NodeJS Javascript and a solid understanding of support concepts such as NPM, module development patterns, asynchrony and event control, relational databases and NoSQL databases, etc.
- 1-3 years of experience in a similar position or willingness to develop in this direction are welcome,
- experience in NodeJS and JavaScript 6/7,
- experience in the development of Amazon Web Services (AWS) web applications or the desire to develop in this direction,
- fluent English.

In return, we propose:

- great working conditions; remuneration adequate to the level of responsibility, necessary tools for work, contact with advanced cloud computing technology,
- unlimited possibility to explore the secrets of cloud computing,
- work for prestigious, demanding clients,
- the possibility of active participation in the work of the research and development team,
- remote work,
- professional development of career paths,
- participation in training, improving qualifications, professional development,
- co-financing for the AWS Certified Developer certificate,
- private medical care / life insurance,
- clear bonus plan,
- stable employment on a B2B contract, UoP
- English - the development of language competences.
